

PERFORMANCE REVIEW POLICY

Your work will be monitored on a continuous basis through regular informal review meetings so that we can help you achieve the standards expected of you and to meet any development needs.

As part of our commitment to you, you will also receive an annual performance appraisal conducted by your line manager. This will be a brief, positive and structured meeting to review your performance over the past year and for you and your manager to agree on your objectives and personal development needs for the year ahead.
